What Would You Do?

A classmate lets you use her markers. When she asks for them back, you realize the markers have dried up.

It's your turn to set the table, but you also have two pages of math to do. It's late, and you don't think you have time to do both. Should you ask your little brother to set the table so you can do your math? Should you set the table and forget your math? How would you handle this and be responsible?
